Indiana Board of Licensure for Professional Geologists

New Applicants

The following persons have submitted their application for licensure as a professional geologist in the state of Indiana. This list does not constitute licensure but makes the applicant's name available to the public. Applicants for licensure must meet the requirements set forth in the Indiana Code 25-17-6 and the Indiana Administrative Code Title 305 on education, professional geological work experience, competency, and personal integrity. If any person(s) or entity that has factual information as to any applicant's qualifications in regard to these requirements, whether that information is positive or negative, please mail the information to the **Indiana Board of Licensure for Professional Geologists, Licensing Coordinator, 5001 N. SR 37 Business, Bloomington, IN 47404-1626**. The information will be circulated to the InBLPG members and only so far as necessary to process and make decisions on the applications. Negative information regarding an applicant's qualifications must be specific and supported. The person(s) providing the information that leads to an applicant's application being denied may be called as a witness in any resulting appeal action. No anonymous comments will be accepted.
